

Table of Contents

LAB – 1

Program to print truth table of negation -----	1
Program to print truth table of conjunction -----	2
Program to print truth table of disjunction -----	3
Program to print truth table of exclusive or -----	4
Program to print truth table of conditional -----	5
Program to print truth table of bi-conditional -----	6

LAB – 2

Program to find GCD by using Euclidian Algorithm -----	7
--	---

LAB – 3

Program to calculate addition, subtraction, multiplication and division -----	8
---	---

LAB – 4

Program to print the ceiling value and flooring value -----	9
---	---

LAB – 5

Program to prove tautology -----	(10-11)
----------------------------------	---------

LAB – 6

Program to find the factorial of a given number using recursion -----	12
---	----

LAB – 7

Program to print Fibonacci series upto n using recursion -----	13
Program to print Fibonacci series upto n without using recursion -----	14

LAB – 8

Program to compute power of any given number -----	15
--	----

LAB – 9

Program to print the permuted string -----	16
--	----
